

EXCELSIOR

MERIT's comprehensive, cloud-based software solution elevates efficiency and accuracy in the collection and interpretation of ophthalmic clinical trial data. EXCELSIOR™ is built to meet regulatory requirements including HIPAA, 21 CFR Part 11, GDPR and HGRAC.

KEY SOFTWARE FEATURES:

- First-of-its kind, FDA 510(k) cleared data management system
- HIPAA, 21 CFR part 11, HGRAC, and GDPR compliant
- Complete data accessibility and accountability, resulting in enhanced efficiency and accuracy for data collection and interpretation
- Real-time reporting functions and access to expert analysis helps study teams track, organize, visualize, and understand data. This facilitates meaningful interpretation and informed decision-making

MERIT's combination of advanced technology and exceptional service optimizes clinical trial stakeholders' imaging strategy and enhances trial success.
