

COMPANY OVERVIEW

As an independent equipment financing company, our foremost goal is to help companies obtain the assets they need to achieve their goals, at the lowest possible cost. We do this by providing innovative and competitive leasing programs to meet the unique needs of our clients—always with a focus on the long-term relationship.

PRESERVE CAPITAL

Equipment leasing conserves equity capital and bank facilities for mission critical growth and other key operating initiatives.

ACCELERATE REFRESHES

Stay on the cutting edge with ready access to technology refreshes. Avoid the burden of costly obsolescence and equipment disposal.

NON-DILUTIVE

We don't require warrants or other equity dilutive conditions. Preserve shareholder value as you grow your business.

FLEXIBLE

Customize your leases to suit your evolving needs. Modify at any time and choose from several options as the lease matures.

WHO WE ARE

FOUNDED IN 1986

We're headquartered in Richmond, VA with branch offices along the East and West Coasts. As a family-run company, we believe in upholding relationships throughout the highs and lows of growing a business. For 35 years, we've had a track record of supporting our clients—even when they face challenges or setbacks.

CAPABLE & AGILE

From start-up businesses to Fortune 500 companies, we serve a variety of industries across a broad spectrum of credit profiles and asset classes. With over \$1 billion in transactions financed, our experience, industry knowledge and unique business model allow us to say yes when others say no.

CAPACITY FOR YOUR NEEDS

We provide steady access to capital with up to \$20M in lease lines, so you can be ready to respond to business opportunities and planned or unplanned financial obligations.

WHO WE SERVE

We provide flexible equipment financing solutions to a wide array of industries and business sectors both domestically and abroad. From legacy household to new fast growing brands, our portfolio includes companies in life sciences and biotech, manufacturing and logistics, food and beverage, agtech, cloud computing, information technology, and more.

WHAT WE DO

Equipment requirements are often significant when building out or expanding facilities. Our leases can remove the barriers to your technology and other equipment procurement without being saddled with expensive and constantly depreciating assets.

TYPES OF EQUIPMENT

Our vendor agnostic approach gives you the freedom to choose your vendor or our experienced in-house asset team can provide tailored vendor recommendations. We finance medical, automation, manufacturing, processing, production, R&D, lab and testing equipment, including:

- Life science, medical, testing
- Lab instrumentation
- Research and development
- Artificial intelligence
- Packaging, production, robotic, automation
- Food and beverage processing
- General manufacturing, forklifts, material handling
- High-tech machinery
- Enterprise servers, storage, routers, switches
- Laptops, desktops, tablets, telecommunication
